

Building trades

Trade up for a hands-on career with a future.

With the demand for qualified tradespeople continuing to rise, there's never been a better time to chase your calling with a career in trades and construction.

At Chisholm, we offer a diverse range of career pathways and courses.

Our graduates work in a variety of roles and industries such as commercial, civil, domestic, owner operators, sub-contractors, Australian Defence Force, mining and more.

Our courses are developed in consultation with industry and our integrated high-tech trade workshops provide real-world and practical hands-on learning.

So whether you want to get into bricklaying, building construction, building design, carpentry and cabinet making, waterproofing, electrical or plumbing, we have the course to get you there.

For a full list of building trades courses and the latest course information, including entry requirements, payment options and intakes, visit chisholm.edu.au/building.

Student story Dylan

Dylan always enjoyed dismantling VCRs and whatever else he could find and using the components to make sculptures and other creations.

Towards the end of high school, Dylan decided to do a pre-apprenticeship Certificate II in Electrotechnology (Career Start) through Chisholm.

The electrical pre-apprenticeship gives you a head start on the competition when employers are looking for new electrical apprentices.

Students gain insight into the electrotechnology industry and develop skills in domestic and commercial electrical work.

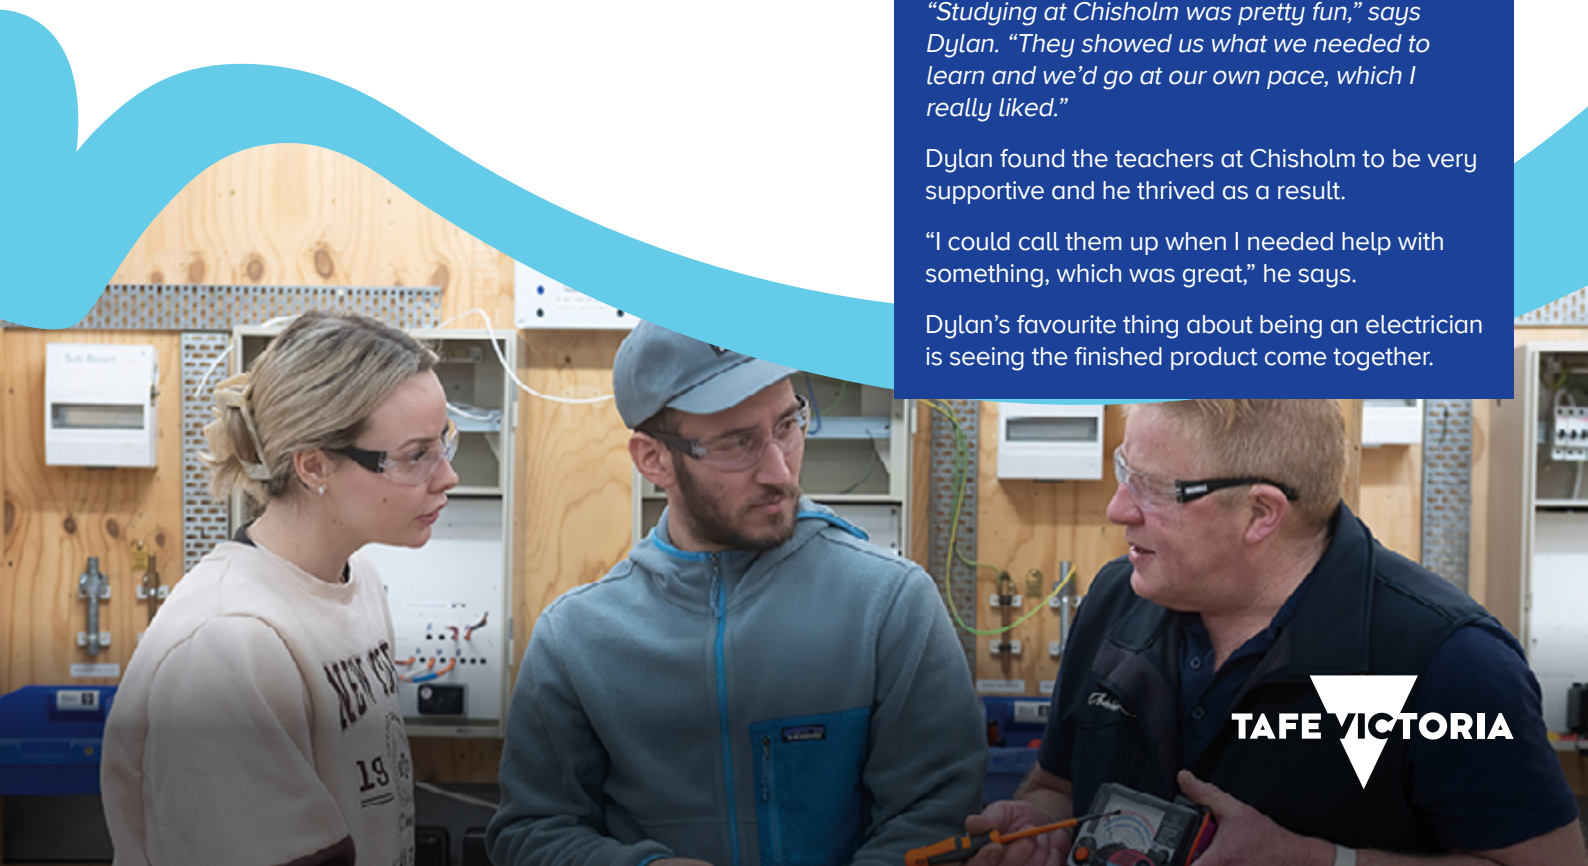

Early on in the course, Dylan knew he had made the right choice. He went on to do his Certificate III in Electrotechnology Electrician apprenticeship, equipping him with the skills needed to work on a variety of electrical installations, including commercial, residential and industrial wiring applications.

"Studying at Chisholm was pretty fun," says Dylan. "They showed us what we needed to learn and we'd go at our own pace, which I really liked."

Dylan found the teachers at Chisholm to be very supportive and he thrived as a result.

"I could call them up when I needed help with something, which was great," he says.

Dylan's favourite thing about being an electrician is seeing the finished product come together.

Bricklaying

Certificate III in Bricklaying and Blocklaying – Apprenticeship CPC33020

Duration: 3 years part time **Location:** W

Building and construction

Certificate II in Building and Construction – Pre-apprenticeship – Carpentry 22614VIC ●

Duration: 10 weeks full time **Location:** D, F

Certificate III in Carpentry – Apprenticeship CPC30220

Duration: 3 years part time **Location:** B, D, F, MP, W

Certificate III in Construction Waterproofing CPC31420 ●

Duration: 7 months part time **Location:** F

Certificate IV in Building and Construction (Building) CPC40120 ●

Duration: 18 months part time **Location:** D, F

Diploma of Building and Construction (Building) CPC50220 ●

Duration: 2 years full time, 2.5 years part time **Location:** F

Building design

Advanced Diploma of Building Design (Architectural) 22477VIC*

Duration: 2 years full time **Location:** F
