Our short courses are designed to give you real skills for the real world to potentially create new study or employment pathways. You'll be taught by friendly, professional teachers who are experienced in their fields.

WHAT IS A SHORT COURSE?

Short courses are usually conducted over one or more sessions.

They are designed to assist you in your current employment, to learn a new skill or try out a subject before committing to an accredited long-term qualification. A short course can be an economical way to acquire new skills or to enhance (or refresh) your existing skills.
